This action is responsive to the communication filed June 3, 2005.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-2, 7, 9-18, 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Erickson et al. See Figures 5 and 9.

Applicant's remarks have been fully considered but are not deemed to be persuasive. Applicant may note that the title of the Erickson et al patent is "Balanced Plug Valve With Contour Wall" (emphasis added) and may further note that the valve construction is identical to the instant device, a plug with fluid communicating between the ends and fluid pressure acting on each end surface.

Claims 3-6, 8, 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
